SUMMARY

Detail-oriented DevSecOps Engineer with over 5 years of experience in automating security processes and implementing DevSecOps practices in CI/CD pipelines. Proven track record of enhancing security posture and reducing vulnerabilities by up to 30% through robust monitoring and compliance strategies.

EXPERIENCE

DevSecOps Engineer

Jan 2022 - Present

Tech Innovations Inc., Atlanta, GA

- Implemented automated security scanning tools, reducing vulnerability detection time by 40%.
- Collaborated with development teams to integrate security into CI/CD pipelines, resulting in a 25% decrease in deployment failures related to security issues.
- Conducted security training sessions for over 50 developers, enhancing the team's awareness of best security practices.

Systems Engineer

Jun 2019 - Dec 2021

CyberSecure Solutions, Atlanta, GA

- Designed and implemented infrastructure as code (IaC) using Terraform, reducing infrastructure provisioning time by 50%.
- Developed monitoring solutions using ELK stack, improving incident response time by 35%.
- Led a security compliance initiative that achieved 100% compliance with industry standards.

Junior Security Analyst

May 2018 - May 2019

Secure IT Services, Atlanta, GA

- Assisted in vulnerability assessments and penetration testing, identifying critical vulnerabilities that could lead to a potential breach.
- Created security documentation and reports that improved incident response capabilities by 20%.
- Participated in the implementation of security policies and procedures for internal systems.

EDUCATION

Bachelor of Science in Computer Science

May 2018

Georgia Institute of Technology, Atlanta, GA • GPA: 3.7

SKILLS

Technical Skills: DevSecOps, Continuous Integration/Continuous Deployment (CI/CD), Infrastructure as Code (IaC), Vulnerability Management

Tools & Frameworks: Terraform, Docker, Kubernetes, Jenkins, AWS, ELK Stack
