## SUMMARY

Detail-oriented Automation Engineer with a solid foundation in software development and testing methodologies. Proficient in designing and implementing automated testing solutions to improve efficiency and quality, eager to contribute to innovative projects.

## EXPERIENCE

### Junior Automation Engineer

Jan 2022 - Present

Tech Innovations Inc., San Francisco, CA

- Developed automated test scripts using Selenium, increasing test coverage by 40%.
- Collaborated with the development team to integrate CI/CD pipelines using Jenkins, reducing deployment times by 30%.
- Improved bug detection rates by 25% through the implementation of automated regression tests.

### Intern Software Test Engineer

Jun 2021 - Dec 2021

Future Tech Solutions, San Jose, CA

- Assisted in creating and executing test plans for web applications, contributing to a 15% decrease in post-release defects.
- Learned and applied Agile methodologies, participating in daily stand-ups and sprint planning.
- Utilized JIRA for tracking bugs and test progress, enhancing team communication.

### Software Development Intern

Jan 2021 - May 2021

Innovatech Corp., Palo Alto, CA

- Contributed to the development of a data processing tool that automated report generation, saving the team 10 hours per week.
- Worked with Python and Java to support backend development tasks, improving application performance.
- Engaged in unit testing and code reviews, enhancing code quality and reducing defects.

## EDUCATION

### Bachelor of Science in Computer Engineering

May 2021

University of California, Berkeley, Berkeley, CA • GPA: 3.7

## SKILLS

**Technical Skills:** Selenium, Python, Java, SQL

**Tools & Frameworks:** Jenkins, JIRA, Git, Postman
