SUMMARY

Recent Biology graduate with hands-on research experience and a strong foundation in ecological studies. Proven ability to analyze data and contribute to impactful research in diverse environments.

EXPERIENCE

Research Assistant

Jan 2022 - Present

Green Earth Research Institute, San Diego, CA

- Contributed to a project studying the effects of climate change on local biodiversity, resulting in a 30% increase in data accuracy through improved sampling techniques.
- Developed a new data management protocol that reduced data entry time by 25% and improved the team's overall efficiency.
- Utilized GIS software to map out study sites, enhancing visual data representation for presentations.

Intern - Biological Technician

Jun 2021 - Dec 2021

BioLabs Inc., Los Angeles, CA

- Assisted in laboratory experiments, achieving consistent results in over 95% of trials conducted.
- Conducted DNA extraction and PCR amplification, contributing to successful gene sequencing projects.
- Collaborated with a team to maintain laboratory equipment and ensure compliance with safety protocols.

Volunteer - Field Researcher

Jan 2020 - May 2021

California Conservation Corps, San Diego, CA

- Participated in habitat restoration projects, leading to a 20% increase in native plant species in affected areas.
- Conducted wildlife surveys and data collection, helping to inform conservation strategies and community outreach efforts.
- Engaged with local schools to promote environmental education, reaching over 300 students.

EDUCATION

Bachelor of Science in Biology

May 2018

University of California, San Diego, La Jolla, CA • GPA: 3.7

SKILLS

Technical Skills: Molecular Biology Techniques, Data Analysis, Ecological Research, Field Sampling

Tools & Frameworks: GIS Software, R Programming, PCR Equipment, Lab Safety Protocols
