SUMMARY

Detail-oriented and passionate recent graduate with a Bachelor of Science in Urban Planning. Experienced in land use analysis and community engagement, with strong skills in GIS and data visualization. Committed to creating sustainable urban environments through effective planning and collaboration.

EXPERIENCE

Urban Planning Intern

Jun 2022 - Present

City of Seattle, Seattle, WA

- Assisted in the development of a zoning proposal that increased green space by 15% in the downtown area, enhancing community well-being.
- Conducted over 30 surveys and community meetings to gather public input, leading to a more inclusive planning process.
- Utilized ArcGIS and AutoCAD to create detailed maps and visualizations that improved stakeholder presentations.

Planning Assistant

Jan 2021 - May 2022

GreenSpace Consulting, Portland, OR

- Supported the development of a comprehensive sustainability plan for a local municipality, projected to reduce carbon emissions by 20% by 2030.
- Analyzed demographic data to inform land use decisions, contributing to a 10% increase in community engagement.
- Drafted reports and presentations for city council meetings, enhancing communication between stakeholders.

Research Assistant

Sep 2019 - Dec 2020

University of Washington, Seattle, WA

- Conducted research on urban heat islands, presenting findings that suggested a 25% reduction in local temperatures with increased tree canopies.
- Assisted in the organization of a symposium on sustainable urban development, attracting over 200 participants.
- Collaborated on a project using GIS to map urban resources, improving access to information for community planners.

EDUCATION
