SUMMARY

Detail-oriented Environmental Scientist with a strong background in field research and data analysis. Proven ability to contribute to sustainability projects and environmental assessments, with a commitment to protecting natural resources and improving environmental quality.

EXPERIENCE

Environmental Research Intern

Jun 2022 - Present

Green Solutions Inc., Seattle, WA

- Conducted water quality assessments that resulted in a 25% reduction in pollutants in local streams over six months.
- Assisted in the development of a community recycling program that increased participation by 40%, leading to a 15% decrease in landfill waste.
- Utilized ArcGIS for mapping and analyzing environmental data, enhancing project reporting efficiency by 30%.

Research Assistant

Sep 2020 - May 2022

University of Washington - Environmental Studies Department, Seattle, WA

- Supported a 2-year study on urban biodiversity, contributing to a published paper in a peer-reviewed journal.
- Performed statistical analyses using R, improving data interpretation speed by 20%.
- Participated in field surveys, collecting data on native species populations across multiple sites.

Sustainability Volunteer

Jan 2019 - Aug 2020

EarthCare Nonprofit, Seattle, WA

- Coordinated local clean-up events, engaging over 200 community members and resulting in the removal of 2 tons of litter.
- Educated community members on sustainable practices, leading to a 50% increase in household composting rates.

EDUCATION

Bachelor of Science in Environmental Science

May 2018

University of Washington, Seattle, WA • GPA: 3.7

SKILLS

Technical Skills: Environmental Impact Assessment, Data Analysis, Field Research, Report Writing

Tools & Frameworks: ArcGIS, R Programming, Microsoft Excel, Remote Sensing
