SUMMARY

Detail-oriented and results-driven recent graduate with a Bachelor of Science in Medical Laboratory Science. Proficient in laboratory techniques and instrumentation, with a strong commitment to quality and accuracy in diagnostics.

EXPERIENCE

Laboratory Intern

Jun 2022 - Present

City Hospital Laboratory, Los Angeles, CA

- Assisted in processing over 300 samples weekly, increasing lab efficiency by 20%.
- Conducted quality control checks on laboratory equipment, reducing errors by 15%.
- Utilized automated analyzers for blood and urine tests, ensuring timely reporting of results.

Volunteer Lab Assistant

Jan 2021 - May 2022

Health Clinic, Los Angeles, CA

- Supported phlebotomy team in collecting samples from patients, contributing to a 100% compliance rate in sample integrity.
- Maintained accurate laboratory records and assisted in inventory management, saving the clinic approximately \$500 annually.
- Trained in basic laboratory techniques, including microscopy and staining procedures.

Laboratory Trainee

Sep 2018 - May 2019

University of California Lab, Los Angeles, CA

- Participated in coursework and hands-on training in hematology and microbiology, achieving a 95% score in practical assessments.
- Collaborated in a research project focused on antibiotic sensitivity testing, enhancing knowledge in clinical diagnostics.

EDUCATION

Bachelor of Science in Medical Laboratory Science

May 2022

California State University, Los Angeles, Los Angeles, CA • GPA: 3.7

SKILLS

Technical Skills: Phlebotomy, Specimen Processing, Microbiology, Hematology

Tools & Frameworks: Automated Analyzers, Centrifuges, Microscopes
