SUMMARY

Detail-oriented ETL Developer with over 5 years of experience in data integration and transformation. Proven track record of optimizing ETL processes, reducing data processing time by 30%, and enhancing data accuracy for business intelligence initiatives.

EXPERIENCE

ETL Developer

Jan 2022 - Present

Tech Solutions Inc., San Francisco, CA

- Designed and implemented ETL processes that reduced data loading times by 40%, improving overall system performance.
- Collaborated with the data warehousing team to optimize data models, resulting in a 25% reduction in storage costs.
- Utilized Talend and SQL Server Integration Services (SSIS) for the extraction, transformation, and loading of large datasets from multiple sources.

Data Engineer

Jun 2019 - Dec 2021

Global Analytics Corp., Los Angeles, CA

- Developed ETL pipelines that processed over 2 million records daily, ensuring timely data availability for stakeholders.
- Implemented data quality checks, improving data accuracy levels from 85% to 98% within three months.
- Leveraged Apache Spark and Hadoop for efficient data processing, leading to a 50% decrease in runtime.

Junior ETL Developer

Aug 2017 - May 2019

Data Innovations Ltd., New York, NY

- Assisted in the migration of legacy ETL processes to modern platforms, cutting maintenance costs by \$15,000 annually.
- Created detailed documentation for ETL processes, enhancing knowledge transfer and onboarding efficiency.
- Participated in the optimization of SQL queries, reducing execution time by 35%.

EDUCATION

Bachelor of Science in Computer Science

May 2018

California State University, Los Angeles, CA • GPA: 3.7

SKILLS

Technical Skills: ETL Development, SQL, Data Warehousing, Data Modeling

Tools & Frameworks: Talend, SSIS, Apache Spark, Hadoop
