SUMMARY

Dedicated Mid Level Biologist with over 5 years of experience in ecological research and data analysis. Proven track record in enhancing research methodologies and leading successful field studies that contribute to environmental conservation.

EXPERIENCE

Research Biologist

Jan 2022 - Present

Greenwood Environmental Solutions, San Francisco, CA

- Led a team of 5 in a project that resulted in a 30% increase in data collection efficiency, saving approximately \$20,000 in research costs.
- Developed and implemented a new ecological monitoring protocol that reduced analysis time by 25% using advanced statistical software.
- Published 3 peer-reviewed papers in high-impact journals, enhancing institutional reputation.

Field Biologist

Jun 2018 - Dec 2021

EcoDynamics Inc., Los Angeles, CA

- Conducted field studies on habitat restoration that improved biodiversity by 40% over 2 years.
- Utilized GIS tools for mapping and analyzing ecological data, improving project outcomes.
- Collaborated with local communities to implement sustainable practices, resulting in a 50% increase in local engagement.

Biological Technician

May 2016 - May 2018

BioResearch Labs, San Diego, CA

- Assisted in lab experiments that led to a 20% increase in experiment throughput.
- Maintained lab equipment and ensured compliance with safety regulations, contributing to a safe working environment.
- Trained new technicians on laboratory protocols and data management systems.

EDUCATION

Bachelor of Science in Biology

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Ecological Research, Data Analysis, Statistical Software (R, SPSS), Field Sampling Techniques

Tools & Frameworks: GIS, ArcGIS, Microsoft Office Suite, Lab Equipment Maintenance
