SUMMARY

Results-driven Data Warehouse Engineer with over 5 years of experience in designing, implementing, and optimizing data warehouse solutions. Proficient in data modeling, ETL processes, and BI tools, with a proven track record of improving data accessibility and performance.

EXPERIENCE

Data Warehouse Engineer

Jan 2022 - Present

Tech Solutions Inc., San Francisco, CA

- Redesigned ETL processes, reducing data load times by 40%, resulting in faster reporting and analytics.
- Collaborated with cross-functional teams to implement a new data warehouse solution that improved data accessibility by 30%.
- Utilized AWS Redshift and Apache Airflow to streamline data pipelines, saving 15 hours of manual data processing weekly.

Junior Data Warehouse Developer

Jun 2019 - Dec 2021

Data Insights Corp., Los Angeles, CA

- Assisted in the migration of legacy systems to a new data warehouse, improving data retrieval speed by 25%.
- Developed and maintained data models in Microsoft SQL Server, leading to a 20% increase in data accuracy.
- Implemented automated reporting solutions using Tableau, saving the team 10 hours of report generation each month.

Data Analyst

May 2018 - May 2019

Analytics Hub, New York, NY

- Performed data analysis to identify trends, resulting in actionable insights that increased client satisfaction by 15%.
- Created dashboards and visualizations in Power BI, reducing the time to access key metrics by 50%.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Data Modeling, ETL Processes, SQL, AWS Redshift

Tools & Frameworks: Apache Airflow, Tableau, Power BI, Microsoft SQL Server
