SUMMARY

Mid Level Deep Learning Engineer with over 5 years of experience in building scalable AI solutions. Proficient in deep learning frameworks and passionate about leveraging data to drive business insight and innovation.

EXPERIENCE

Deep Learning Engineer

Jan 2022 - Present

Tech Innovators Inc., San Francisco, CA

- Developed a deep learning model that increased image classification accuracy by 20%, resulting in a \$150,000 annual savings in operational costs.
- Led a team of 4 engineers to design and implement a NLP solution that reduced customer query response time by 30%.
- Utilized TensorFlow and Keras to develop and deploy models in a cloud environment, enhancing scalability and performance by 50%.

Machine Learning Engineer

Jun 2019 - Dec 2021

Data Solutions Corp., Austin, TX

- Created predictive models that improved sales forecasting accuracy by 25%, leading to \$200,000 in increased revenue.
- Implemented data augmentation techniques that increased training data efficiency, reducing model training time by 40%.
- Collaborated with cross-functional teams to integrate machine learning solutions into existing software products.

Data Scientist

Aug 2018 - May 2019

Analytics Group LLC, Seattle, WA

- Developed statistical models to analyze customer behavior, resulting in a 15% increase in user engagement.
- Automated data collection and preprocessing pipelines, reducing data preparation time by 50%.
- Presented findings to stakeholders, influencing strategic decisions that led to a 10% increase in market share.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Deep Learning, Machine Learning, Natural Language Processing, Computer Vision

Tools & Frameworks: TensorFlow, Keras, PyTorch, Scikit-learn, Docker, AWS
