SUMMARY

Mid Level Design Engineer with over 5 years of experience in product design and development. Proven ability to deliver high-quality designs that improve functionality and efficiency. Strong background in CAD software and collaborative project management.

EXPERIENCE

Design Engineer

Jan 2022 - Present

Innovatech Solutions, San Jose, CA

- Led a project that reduced product development time by 20%, saving the company approximately \$150,000 annually.
- Collaborated with cross-functional teams to develop a new product line, achieving a 30% increase in customer satisfaction scores.
- Utilized SolidWorks and AutoCAD to create detailed 3D models and prototypes, improving design accuracy by 15%.

Junior Design Engineer

Jun 2018 - Dec 2021

TechDynamics Inc., San Francisco, CA

- Assisted in the design and testing of mechanical systems, which led to a 25% decrease in material costs.
- Implemented best practices in design documentation, improving team efficiency by 10%.
- Participated in Agile development processes, enhancing project delivery timelines.

Intern Design Engineer

Jan 2017 - May 2018

GreenTech Innovations, Palo Alto, CA

- Developed CAD models for renewable energy products, contributing to a project that secured \$500,000 in funding.
- Conducted research and analysis that informed the design of energy-efficient components, reducing energy consumption by 15%.

EDUCATION

Bachelor of Science in Mechanical Engineering

May 2018

Stanford University, Stanford, CA • GPA: 3.7

SKILLS

Technical Skills: SolidWorks, AutoCAD, MATLAB, Finite Element Analysis (FEA)

Tools & Frameworks: Agile Methodology, Project Management Software, 3D Printing
