SUMMARY

Detail-oriented Node Developer with over 5 years of experience in building scalable web applications. Proficient in JavaScript and various frameworks, with a strong focus on optimizing performance and enhancing user experience.

EXPERIENCE

Node Developer

Jan 2022 - Present

Tech Solutions Inc., San Francisco, CA

- Developed a RESTful API that improved data retrieval times by 30%, enhancing overall application performance.
- Led a team of 4 developers to design a microservices architecture that reduced server costs by 20% over a year.
- Implemented automated testing that decreased bug rate by 25% during production releases.

Full Stack Developer

Jun 2018 - Dec 2021

Innovatech Corp., Los Angeles, CA

- Built and maintained backend services using Node.js and Express, supporting 10,000+ monthly active users.
- Migrated legacy codebase to a modern framework, resulting in a 40% reduction in load times.
- Collaborated with cross-functional teams to deliver features that increased customer satisfaction scores by 15%.

Junior Node Developer

Jul 2016 - May 2018

WebDev Solutions, Austin, TX

- Assisted in the development of scalable web applications that generated \$200,000 in new revenue.
- Contributed to the design and implementation of a continuous integration pipeline, reducing deployment time by 50%.
- Enhanced application security by implementing JWT authentication, resulting in zero security breaches.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Node.js, JavaScript, Express.js, Database Management (MongoDB, PostgreSQL)

Tools & Frameworks: Docker, Kubernetes, Git, Jest
