SUMMARY

Detail-oriented Penetration Tester with over 5 years of experience in identifying vulnerabilities and securing network systems. Proficient in various penetration testing methodologies and tools, with a proven track record of reducing security threats by 30% for clients.

EXPERIENCE

Senior Penetration Tester

Jan 2022 - Present

CyberSecure Solutions, Seattle, WA

- Led penetration tests for over 50 clients, resulting in a 30% reduction in security vulnerabilities.
- Developed automated testing scripts that improved testing efficiency by 40%, saving approximately \$15,000 annually in labor costs.
- Conducted comprehensive security audits using OWASP and NIST frameworks.

Penetration Tester

Jul 2018 - Dec 2021

SecureTech Innovations, San Francisco, CA

- Performed network and web application penetration tests, identifying critical vulnerabilities in 95% of engagements.
- Collaborated with development teams to remediate vulnerabilities, resulting in a 25% decrease in post-deployment issues.
- Utilized tools such as Metasploit, Burp Suite, and Nessus to conduct thorough security assessments.

Junior Penetration Tester

May 2016 - Jun 2018

InfoGuard Technologies, Los Angeles, CA

- Assisted in vulnerability assessments and penetration tests, contributing to a project that secured \$200,000 worth of sensitive data.
- Participated in security awareness training sessions for clients, enhancing overall cybersecurity posture.
- Gained hands-on experience with various security tools, including Wireshark and Aircrack-ng.

EDUCATION

Bachelor of Science in Cybersecurity

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.8

SKILLS

Technical Skills: Penetration Testing, Vulnerability Assessment, Network Security, Web Application Security

Tools & Frameworks: Metasploit, Burp Suite, Nessus, OWASP ZAP
