SUMMARY

Results-driven Prompt Engineer with over 5 years of experience in developing and optimizing natural language processing systems. Proven ability to enhance model performance and user experience through innovative prompt design and testing methodologies.

EXPERIENCE

Prompt Engineer

Jan 2022 - Present

Innovative AI Solutions, San Francisco, CA

- Improved response accuracy by 30% through strategic prompt engineering and A/B testing.
- Led a project that reduced model training time by 25%, saving the company \$50,000 annually.
- Collaborated with cross-functional teams to refine user interaction flows, resulting in a 15% increase in user satisfaction scores.

NLP Engineer

Jun 2019 - Dec 2021

Tech Innovations LLC, Los Angeles, CA

- Developed and implemented advanced prompt strategies that enhanced model clarity and coherence, leading to a 40% reduction in user queries.
- Automated prompt evaluation processes using Python, increasing efficiency by 20%.
- Engaged in user testing sessions to gather feedback on prompt responses, directly informing model updates.

Data Scientist

Jul 2018 - May 2019

Smart Analytics Corp., Los Angeles, CA

- Utilized machine learning algorithms to analyze user engagement, resulting in insights that boosted product adoption by 15%.
- Conducted extensive research on language models and their applications in real-world scenarios, contributing to the launch of two successful AI products.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Natural Language Processing, Machine Learning, Prompt Engineering, Python

Tools & Frameworks: TensorFlow, PyTorch, Hugging Face Transformers
