SUMMARY

Experienced Azure Architect with over 8 years of expertise in designing and deploying scalable cloud solutions. Proven track record in optimizing infrastructure and reducing costs while improving performance and security.

EXPERIENCE

Senior Azure Architect

Jan 2022 - Present

Tech Solutions Inc., Seattle, WA

- Led a migration project that transitioned 80% of on-premise applications to Azure, reducing operational costs by 30%.
- Implemented Azure DevOps CI/CD pipelines, resulting in a 50% reduction in deployment time.
- Designed a robust disaster recovery solution utilizing Azure Site Recovery, ensuring 99.9% uptime.

Azure Cloud Engineer

Jun 2018 - Dec 2021

Innovative Solutions Corp., San Francisco, CA

- Architected a multi-region Azure architecture that improved application response times by 40%.
- Automated infrastructure provisioning with Terraform, decreasing setup time by 75%.
- Collaborated with cross-functional teams to integrate Azure security best practices, leading to a 60% reduction in vulnerabilities.

Cloud Consultant

Jul 2015 - May 2018

Global Tech Partners, Austin, TX

- Advised clients on cloud strategy and operational improvements, resulting in savings of over \$1M annually.
- Developed training programs for teams on Azure services, enhancing team capabilities and efficiency.
- Optimized cloud costs through monitoring and reporting tools, achieving a 20% reduction in cloud spend.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of Washington, Seattle, WA • GPA: 3.7

SKILLS

Technical Skills: Azure Architecture, Cloud Security, DevOps Practices, Infrastructure as Code

Tools & Frameworks: Azure DevOps, Terraform, Kubernetes, Docker
