SUMMARY

Dedicated and knowledgeable Senior Level Dairy Farm Worker with over 8 years of intensive experience in herd management, dairy production, and farm operations. Proven ability to enhance productivity through innovative farming techniques and efficient resource management.

EXPERIENCE

Senior Dairy Farm Manager

Jan 2022 - Present

Green Fields Dairy, Springfield, IL

- Increased milk production by 20% over one year through implementing advanced feeding strategies and health monitoring systems.
- Oversaw a team of 15 farm workers, enhancing team productivity by 30% through improved training and performance metrics.
- Managed daily operations including milking, herd health, and breeding programs utilizing the DairyComp 305 management software.

Dairy Production Supervisor

Mar 2018 - Dec 2021

Sunny Acres Farms, Peoria, IL

- Streamlined milking processes, reducing milking time by 15%, resulting in increased operational efficiency.
- Implemented a health and wellness program that reduced herd illness by 25%, saving the farm approximately \$50,000 annually in veterinary costs.
- Utilized precision agriculture tools to monitor soil and crop health, leading to a 10% increase in feed quality.

Dairy Farm Technician

Jun 2015 - Feb 2018

Harvest Moon Dairy, Champaign, IL

- Conducted regular health assessments of over 200 dairy cattle, contributing to a 15% improvement in overall herd health.
- Assisted in the transition to automated milking systems, resulting in a 40% decrease in labor costs and a 25% increase in milk yield.
- Trained new staff on safety protocols and animal handling techniques, fostering a safety-first work environment.
