## SUMMARY

Results-driven Senior Data Warehouse Engineer with over 8 years of experience in designing and implementing robust data solutions. Proficient in ETL processes and data modeling, with a proven track record of improving data retrieval times and reducing costs.

## EXPERIENCE

### Senior Data Warehouse Engineer

Jan 2022 - Present

*Tech Innovations Inc., Austin, TX*

- Led a team to redesign the data warehouse architecture, resulting in a 40% reduction in data retrieval times.
- Implemented a new ETL process that decreased data loading times by 30%, saving approximately \$100,000 annually in operational costs.
- Developed and optimized complex SQL queries for analytics, enhancing reporting speed and accuracy.

### Data Warehouse Engineer

Jul 2018 - Dec 2021

*Global Data Solutions, San Francisco, CA*

- Spearheaded the migration of legacy systems to a modern cloud-based data warehouse, improving scalability and accessibility.
- Collaborated with cross-functional teams to define data requirements and create data models, leading to a 25% increase in user satisfaction.
- Optimized ETL processes using Informatica, which resulted in a 20% increase in data processing efficiency.

### Junior Data Warehouse Developer

May 2015 - Jun 2018

*Data Insights Corp., Seattle, WA*

- Assisted in developing data pipelines that integrated various data sources, enhancing data availability for analysis.
- Monitored and maintained data integrity and reliability, resulting in a 15% reduction in data discrepancies.
- Participated in user training sessions, improving team understanding of data tools and processes.

## EDUCATION

### Bachelor of Science in Computer Science

May 2018

*University of California, Berkeley, Berkeley, CA • GPA: 3.7*

## SKILLS

**Technical Skills:** SQL, ETL Processes, Data Modeling, Data Analysis

**Tools & Frameworks:** Informatica, AWS Redshift, Tableau, Apache Spark
