SUMMARY

Results-driven Senior Penetration Tester with over 7 years of experience in identifying vulnerabilities and securing systems across various industries. Proficient in executing penetration tests, conducting vulnerability assessments, and providing actionable remediation strategies.

EXPERIENCE

Senior Penetration Tester

Jan 2022 - Present

SecureTech Solutions, San Francisco, CA

- Led a team of 5 in performing comprehensive penetration tests, resulting in a 30% reduction in vulnerabilities across client systems within 6 months.
- Developed and implemented a robust security training program for developers, reducing code vulnerabilities by 25%.
- Utilized tools such as Metasploit, Burp Suite, and OWASP ZAP for testing and reporting.

Penetration Tester

Jun 2019 - Dec 2021

CyberSecurity Innovations, Los Angeles, CA

- Conducted over 50 penetration tests for clients in finance and healthcare sectors, achieving an average vulnerability discovery rate of 40%.
- Collaborated with software development teams to integrate security best practices, which led to a 15% decrease in production bugs.
- Implemented automated testing scripts that reduced testing time by 20%.

Junior Penetration Tester

Aug 2016 - May 2019

TechGuard Solutions, New York, NY

- Assisted in over 30 penetration tests, identifying critical vulnerabilities that saved clients up to \$100,000 in potential breaches.
- Participated in incident response and forensic investigations, providing detailed reports and recommendations.
- Gained hands-on experience with Kali Linux, Wireshark, and Nessus.

EDUCATION

Bachelor of Science in Cybersecurity

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Penetration Testing, Vulnerability Assessment, Incident Response, Web Application Security

Tools & Frameworks: Metasploit, Burp Suite, OWASP ZAP, Nessus
