SUMMARY

Results-driven Senior Systems Engineer with over 8 years of experience in designing, implementing, and optimizing complex systems. Proven track record in driving efficiency and reducing costs through innovative engineering solutions and strategic project management.

EXPERIENCE

Senior Systems Engineer

Jan 2022 - Present

Tech Solutions Inc., San Francisco, CA

- Led a project to redesign system architecture, resulting in a 30% reduction in operational costs and improving system reliability by 25%.
- Implemented automation tools that reduced deployment time by 40%, enhancing overall team productivity.
- Collaborated with cross-functional teams to migrate legacy systems to cloud infrastructure, increasing scalability and reducing downtime.

Systems Engineer

Jun 2018 - Dec 2021

Innovatech Systems, New York, NY

- Optimized network configurations, which improved performance metrics by 20% and reduced latency by 15%.
- Developed a monitoring system that decreased system outages by 50%, translating to an annual savings of \$200,000.
- Designed and implemented disaster recovery solutions that ensured 99.9% uptime for critical services.

Junior Systems Engineer

Jan 2015 - May 2018

NextGen Technologies, Austin, TX

- Assisted in the deployment of a new enterprise resource planning system, resulting in a 15% increase in operational efficiency.
- Conducted system analyses that identified bottlenecks in processing speeds, leading to a 30% enhancement in performance.
- Provided technical support and training to staff, improving system usage rates by 25%.

EDUCATION

Bachelor of Science in Computer Engineering

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Systems Architecture, Cloud Computing, Network Security, Automation Scripting

Tools & Frameworks: AWS, Docker, Kubernetes, Ansible
