SUMMARY

Detail-oriented Snowflake Developer with over 5 years of experience in data warehousing and analytics. Proven track record in optimizing data processes and enhancing data accessibility for analytics teams, resulting in significant business insights and cost savings.

EXPERIENCE

Snowflake Developer

Jan 2022 - Present

Tech Innovations, Inc., San Francisco, CA

- Designed and implemented a data pipeline in Snowflake, reducing data processing time by 30%, saving approximately \$50,000 annually.
- Collaborated with cross-functional teams to migrate legacy data systems to Snowflake, improving data accessibility for 100+ users.
- Developed complex SQL queries and Snowflake scripts to automate data ingestion and transformation processes, increasing efficiency by 40%.

Data Engineer

Jun 2019 - Dec 2021

Global Solutions Corp., Los Angeles, CA

- Engineered ETL processes using Snowflake, resulting in a 25% reduction in data latency and timely reporting for stakeholders.
- Enhanced data quality and integrity through comprehensive data validation and cleansing techniques, achieving a 99% accuracy rate.
- Played a key role in a project that transitioned company-wide analytics to a cloud-based Snowflake platform, improving overall project delivery times by 15%.

Junior Data Analyst

Jan 2018 - May 2019

Data Solutions LLC, Los Angeles, CA

- Assisted in the development of data models within Snowflake, leading to a 20% increase in report generation speed.
- Performed data analysis and created dashboards in Tableau, enabling business leaders to make data-driven decisions effectively.
- Supported data warehousing initiatives by developing SQL scripts for data extraction and reporting.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: Snowflake, SQL, ETL Processes, Data Warehousing

Tools & Frameworks: Tableau, Apache Airflow, Git
