SUMMARY

Detail-oriented Software Engineer with over 5 years of experience in developing scalable web applications and optimizing performance. Proficient in full-stack development and passionate about leveraging technologies to solve real-world problems.

EXPERIENCE

Senior Software Engineer

Jan 2022 - Present

Tech Innovators Inc., San Francisco, CA

- Led a team to develop a microservices architecture that reduced application downtime by 40%, resulting in estimated savings of \$200K per year.
- Implemented CI/CD pipelines using Jenkins and Docker, which decreased deployment times by 70%.
- Redesigned the user authentication system, improving security and reducing user login issues by 30%.

Software Engineer

Jun 2018 - Dec 2021

NextGen Solutions, Austin, TX

- Developed a real-time data processing system using Node.js and MongoDB, increasing data retrieval speed by 50%.
- Collaborated with cross-functional teams to design and deploy responsive web applications, achieving a user satisfaction score of 95%.
- Automated testing processes using Selenium, reducing bugs in production by 25%.

Junior Software Developer

Jul 2016 - May 2018

StartUp Hub, Boston, MA

- Assisted in developing a mobile app that garnered over 10,000 downloads within the first month of launch.
- Participated in Agile sprints to enhance product features, contributing to an increase in user engagement by 15%.
- Contributed to code reviews and documentation, improving team knowledge sharing and project workflows.

EDUCATION

Bachelor of Science in Computer Science

May 2018

University of California, Berkeley, Berkeley, CA • GPA: 3.7

SKILLS

Technical Skills: JavaScript, Node.js, React, Python

Tools & Frameworks: Docker, Jenkins, MongoDB, Selenium
