## SUMMARY

---

Dedicated Surgical Technologist with over 5 years of experience in operating room environments. Proven ability to assist in diverse surgical procedures while ensuring patient safety and optimizing surgical efficiency.

## EXPERIENCE

---

### Surgical Technologist

Jan 2022 - Present

*Seattle Medical Center, Seattle, WA*

- Assisted in over 300 surgical procedures, enhancing team efficiency by 20% through effective preparation and instrument management.
- Implemented a new sterilization protocol that reduced surgical site infections by 15% within the first year.
- Trained and mentored 5 new surgical interns, improving their readiness and confidence in the operating room.

### Surgical Technologist

Jun 2019 - Dec 2021

*Greenwood Surgical Clinic, Greenwood, IN*

- Contributed to a 25% increase in operational efficiency by streamlining the instrument inventory process.
- Collaborated with surgeons and nurses to enhance the surgical experience and reduce procedure times by an average of 10 minutes.
- Maintained compliance with hospital protocols, resulting in a 100% pass rate during health inspections.

### Surgical Technologist Intern

Jan 2018 - May 2019

*St. Francis Hospital, Indianapolis, IN*

- Assisted in more than 100 surgical procedures, gaining hands-on experience in various specialties.
- Developed skills in surgical instrumentation and patient care, receiving recognition for exemplary performance.
- Participated in ongoing training programs that improved knowledge of surgical technology and procedures.

## EDUCATION

---

### Bachelor of Science in Surgical Technology

May 2018

*University of Washington, Seattle, WA • GPA: 3.7*

## SKILLS

---

**Technical Skills:** Surgical Instrumentation, Sterilization Techniques, Patient Care, Anesthesia Assistance

**Tools & Frameworks:** Surgical Suites, Autoclaves, Electronic Health Records (EHR), Surgical Navigation Systems
