SUMMARY

Dedicated Tool and Die Maker with over 5 years of experience in designing, fabricating, and repairing precision tools and dies. Expertise in optimizing production processes to achieve efficiency and quality standards.

EXPERIENCE

Tool and Die Maker

Jan 2022 - Present

Precision Engineering Co., Atlanta, GA

- Reduced tool production time by 20% through the implementation of lean manufacturing techniques.
- Designed and constructed custom dies that improved product accuracy by 15%, resulting in a \$50,000 annual savings.
- Utilized CAD software for die design, ensuring precision and adherence to client specifications.

Apprentice Tool and Die Maker

Jun 2018 - Dec 2021

Smith & Sons Manufacturing, Atlanta, GA

- Assisted in the fabrication of high-precision dies, contributing to a 10% reduction in waste material.
- Learned to operate CNC milling and grinding machines, increasing machine run-time efficiency by 25%.
- Collaborated with engineers to troubleshoot production issues, reducing downtime by 15%.

Machinist

May 2016 - May 2018

ABC Machining Services, Atlanta, GA

- Set up and operated multiple types of machinery, achieving a production output increase of 30%.
- Maintained rigorous quality control standards that resulted in a 98% customer satisfaction rating.
- Streamlined the machining process, cutting production costs by \$10,000 annually.

EDUCATION

Bachelor of Science in Mechanical Engineering Technology

May 2018

Georgia Institute of Technology, Atlanta, GA • GPA: 3.7

SKILLS

Technical Skills: CNC Machining, CAD Software (AutoCAD, SolidWorks), Metal Fabrication, Blueprint Reading

Tools & Frameworks: Milling Machines, Lathes, Surface Grinders
