SUMMARY

Detail-oriented Toxicologist with over 5 years of experience in environmental and pharmaceutical toxicology. Proven expertise in risk assessment, data analysis, and regulatory compliance, contributing to enhanced safety standards and reduced product liability.

EXPERIENCE

Senior Toxicologist

Jan 2022 - Present

GreenTech Solutions, Seattle, WA

- Led a team to evaluate the toxicity of new chemical compounds, resulting in a 30% reduction in adverse effects during product development.
- Implemented advanced in vitro testing methods that decreased testing time by 25%, expediting the product launch process.
- Authored comprehensive risk assessment reports that improved compliance with EPA regulations, saving the company \$150,000 in potential fines.

Toxicologist

Jun 2018 - Dec 2021

Pharma Innovations Inc., Portland, OR

- Conducted toxicity studies and assessments for over 10 pharmaceutical compounds, leading to successful FDA approvals.
- Developed a predictive toxicology model that increased accuracy of safety predictions by 40%, enhancing product viability.
- Collaborated with cross-functional teams to streamline toxicological evaluations, resulting in a 15% cost reduction in testing processes.

Research Assistant – Toxicology

Sep 2015 - May 2018

University of Washington, Seattle, WA

- Assisted in research on heavy metal toxicity, contributing to publications in peer-reviewed journals.
- Utilized LC-MS and GC-MS for quantitative analysis of environmental samples, enhancing lab efficiency by 20%.
- Presented findings at national conferences, improving university visibility and attracting research grants.

EDUCATION

Bachelor of Science in Toxicology

May 2018

University of Washington, Seattle, WA • GPA: 3.7

SKILLS

Technical Skills: Risk Assessment, Data Analysis, Regulatory Compliance, In Vitro Testing

Tools & Frameworks: LC-MS, GC-MS, Statistical Software (R, SAS), Toxicology Databases (ToxNet)
