SUMMARY

Detail-oriented Validation Engineer with over 5 years of experience in the pharmaceutical and biotechnology industries. Proven track record of improving validation processes and ensuring compliance with regulatory standards, resulting in enhanced product quality and operational efficiency.

EXPERIENCE

Validation Engineer

Jan 2022 - Present

BioGenix Solutions, Austin, TX

- Led the validation of a new manufacturing process, reducing cycle time by 30%, which saved approximately \$250,000 annually.
- Implemented a risk-based validation approach that improved compliance audit scores by 25%.
- Collaborated with cross-functional teams to create and execute validation protocols for equipment and software, ensuring 100% compliance with FDA regulations.

Junior Validation Engineer

Jun 2018 - Dec 2021

Pharma Dynamics, San Antonio, TX

- Assisted in the validation of automated systems, achieving a 20% reduction in validation time through streamlined documentation processes.
- Conducted equipment requalifications resulting in increased uptime by 15%, enhancing overall production efficiency.
- Trained new staff on validation standards and procedures, improving team productivity and compliance knowledge.

Validation Intern

Jan 2018 - May 2018

HealthTech Innovations, Houston, TX

- Supported the validation team in creating and executing validation documents for laboratory equipment.
- Participated in risk assessments that contributed to the successful launch of new products, ensuring compliance with industry standards.

EDUCATION

Bachelor of Science in Biomedical Engineering

May 2018

University of Texas at Austin, Austin, TX • GPA: 3.7

SKILLS

Technical Skills: Validation Protocols, Risk Management, Quality Assurance, Regulatory Compliance

Tools & Frameworks: TrackWise, MS Office Suite, SPC Software, Statistical Analysis Tools
