SUMMARY

Dedicated zoologist with over 5 years of experience in wildlife research and conservation. Proven track record in conducting field studies, analyzing animal behavior, and collaborating with conservation organizations to drive meaningful change.

EXPERIENCE

Wildlife Research Scientist

Jan 2022 - Present

San Diego Zoo Wildlife Alliance, San Diego, CA

- Led a study on the behavioral patterns of endangered species, resulting in a 25% increase in successful breeding rates.
- Developed and implemented a new data tracking system that reduced data entry time by 40%.
- Collaborated with a team of 10 scientists to publish findings in a peer-reviewed journal, enhancing the organization's visibility and credibility in the field.

Zoologist

Jun 2018 - Dec 2021

Wildlife Conservation Society, New York, NY

- Conducted field research on habitat restoration that improved local biodiversity by 15%.
- Implemented educational programs for local communities, increasing engagement in conservation efforts by 30%.
- Utilized GIS software to map animal migration patterns, providing critical data for conservation planning.

Research Assistant

Aug 2016 - May 2018

University of Florida - Department of Zoology, Gainesville, FL

- Assisted in a study on the effects of climate change on coastal ecosystems, contributing to a report that influenced local policy changes.
- Managed a database of over 1,000 species, ensuring data accuracy and accessibility for ongoing research.
- Presented research findings at 3 national conferences, enhancing departmental recognition.

EDUCATION

Bachelor of Science in Zoology

May 2018

University of Florida, Gainesville, FL • GPA: 3.7

SKILLS

Technical Skills: Field Research, Animal Behavior Analysis, Statistical Analysis, Habitat Restoration Techniques

Tools & Frameworks: GIS Software, R Programming, SPSS, Microsoft Excel
